The WANAMAKER DIARY 1928

INSURANCE WITHOUT QUIBBLES

An insurance policy should leave nothing to the imagination but everything should be explicitly stated.

You should have insurance which will be worth as much after the loss as you were told it would be when you bought it.

You can mail us orders for insurance and we will be prompt to advise you as to the cost.

The

Little Things Count

In every phase of life the little things count most.

A little more effort in the minor jobs, paves the way to the highest positions, a little more quality put into any commodity makes it in time the outstanding seller.

A little finer workmanship, closer attention to the details of style and wearing qualities have been the distinguishing features of fine custom made clothes.

In cut, finish, materials and workmanship, Scheyer Tailored Clothes rank with the finest craftsmanship of the leading custom tailors. Yet they are made ready to wear for men who aspire to the finest in clothes but who do not care to pay the corresponding custom tailored prices.

Scheyer Tailored Clothes meet a definite need.

Always featuring the best the London Shop shows—

The Writing of Today

THE PORTABLE TYPEWRITER has taken its place among modern inventions for saving time and making life more pleasant.

No longer must people rely on the slow-moving pen for personal correspondence. Women, business executives, professional men, college men and women—people in every walk of life—are turning to a quicker, better writing method.

The writing of today is, more and more, being done on the swift, sure keys of the Underwood Portable.

The new Underwood Portable is on sale at Underwood Offices in the principal cities.

THE FAMILY DENTIFRICE

A tooth paste that performs the full function of a cleanser without harm to the teeth or mouth tissues and leaves the mouth delightfully refreshed; is safe and desirable for people of all ages.
S. S. White Tooth Paste makes these claims and no others—it is not medicated, not a "cure all".

USE S.S.WHITE TOOTH PASTE

A pure, white dentifrice in a clean, white tube

25c at all druggists

S.S.WHITE TOOTH PASTE

Don't forget to look at the

package

WHEN you made that emergency purchase, was it packed in a good-looking box that you didn't mind carrying? When you undid your new waist or dress, did you look at the box that held it until it reached your home? Was it a strong, well-made box, or a flimsy affair—all coming apart?

The careful merchant not only protects your purchase until it is delivered to your home, but he has pride in furnishing an attractive package that will please you and reflect favorably on his store.

Brown & Bailey boxes indicate two things—the value that the merchant places on the contents of your package, and the high quality of service he desires to give you.

We Also Bake Cake

You probably associate the name Freihofer with bread—good bread.

But we also bake cake.

You need not spend precious hours in a hot kitchen making cake.

Whether for a lap luncheon or a formal dinner, there is a Freihofer Quality Cake that is just right for the occasion.

There is a choice of over 50 varieties, besides the decorated cakes which are made to your order.

We aim to make our cakes just as fine as cakes can be made in the home kitchen.

Pure butter and eggs, the best of everything that money can buy account for the delicate colors and fine flavor of our cake.

From our large variety you can always choose a cake that is sure to grace your table and please family and guests alike.

If you have not tasted a Freihofer cake, won't you try one? Forty years of quality baking is your guarantee of satisfaction.

FREIHOFER BAKING COMPANY

Hundreds of Thousands of Philadelphia Women

are this very minute wearing Jeanette Morning Frocks in homes all over town. Each year these women buy an average half dozen more. The reason is plain . . . Jeanette Frocks satisfy in every point of style, workmanship and wearability.

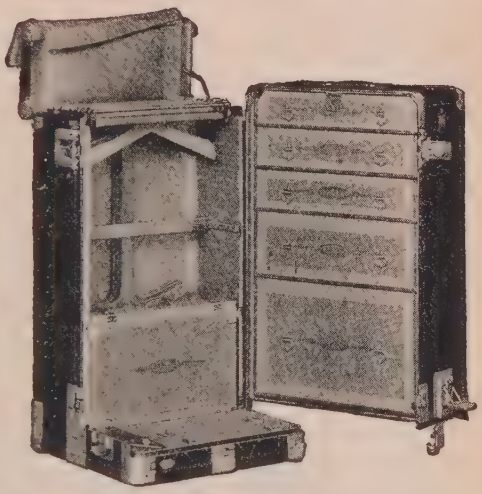
WHEARY TRUNKS

Wheary Wardrola

—the trunk that ROLLS open



A touch of the hand . . . and the entire drawer section of this new-day wardrobe trunk rolls open, the Wheary patented movable leg automatically dropping into position as a support. Smooth ball bearing roller saves rugs and floors. Solid base makers Wardrola strongest where other trunks are weakest—eliminates repair bills—prevents Wardrola from tipping over.
Cushioned Top protects clothes from wrinkling. Six Way Locking Bolt makes Wardrola one rigid unit when closed. Rigid-Tested Construction assures extra years of service.

Wheary Airplane Wardrolette

—a wardrobe trunk about the size of a suitcase

Portable, compact, light, sturdy. Fits under Pullman seat or on running board of car. Amazing capacity and clothes protection. Spacious removable tray. Ladies' size holds 10 dresses, 3 pairs of shoes, 42 other garments. Men's size—4 suits, 6 shirts, 51 other items. For auto, railroad, steamship, motorbus, airplane travel.

WHEARY TRUNK COMPANY, Racine, Wisconsin

LINGERIE *from* PARIS TO YOU

Original Drecoll *Designs*

PARIS

EXECUTED BY *Luxite*

AND OFFERED YOU TODAY—AT DUTY FREE PRICES

This celebrated label you will find in every Drecoll designed Luxite garment, guarantee of smartness. Through Drecoll's door pass fashion leaders from every land seeking the dictates of "the master of the mode."

Sold by the Wanamaker Stores in New York and Philadelphia in the Glove Silk Lingerie Depts.

NOW, for the first time, a Paris master designer creates lingerie which reflects every phase of the mode. Drecoll originates glove silk lingerie, just to suit the gown of the moment . . . cut to give the figure most alluring, most flattering lines.

The season's gayest pajama is pictured here, but its fresh, vivid coloring can unfortunately not be shown. Developed in daffodil yellow and springtime green, it is, typical of Drecoll's ingenuity and chic.

DORFAN *Loco-Builder Engines—the finest Toys in the World!*

DORFAN Loco-Builder Engines are fast and powerful. They may be taken apart, piece by piece, and easily put together again with a screw driver. They are powerful, too. In a tug-of-war—they will outpull any engine of equal size. Their housings, made of Dorfan Alloy, are stronger than cast iron—and practically unbreakable. Dorfan Loco-Builder Engines are available in several sizes and prices, and may be bought individually or as a part of Dorfan Train Sets.

PIONEER

QUALITY

QUALITY is largely a comparative term, particularly when applied to merchandise. So when we say that Pioneer Belts, Pioneer Suspenders and Brighton Garters are of the *best quality*, we mean literally that their peers do not exist in the market. The men who wear them will endorse this statement.

ALMANAC 1928

A YEAR of 366 days, being designated as Leap Year, and, until the 4th of July, the 152nd year of American Independence.

This Almanac contains the rising, setting and eclipses of the Sun and Moon; the phases and places of the Moon; the aspects of the planets; the rising, setting and southing of the most conspicuous planets and fixed stars; the equation of time, and the tides.

NOTE TO READER.—The calculations in this Almanac are given for Philadelphia in local or mean solar time, when not otherwise expressed; the risings and settings of the Sun and Moon being for the upper limb, corrected for parallax and refraction.

To change to Standard Time, four minutes are to be subtracted for every degree of longitude the place is East of one of the Standard Meridians, and four minutes added for every degree West of the same.

CHRONOLOGICAL CYCLES, 1928

Dominical Letters	A, G
Epact	8
Lunar Cycle or Golden Number	10
Solar Cycle	5
Roman Indiction	11
Julian Period	6641

EMBER DAYS, 1928

February	29
March	2 and 3
May	30
June	1 and 2
September	19, 21 and 22
December	19, 21 and 22

THE SEASONS, 1928

(*Eastern Standard Time*)

Vernal Equinox: Sun enters Aries. Spring begins March 20, 5h. 45m., P.M.
Summer Solstice: Sun enters Cancer. Summer begins June 21, 11h. 7m., A.M.
Autumnal Equinox: Sun enters Libra. Autumn begins Sept. 23, 2h. 6m., A.M.
Winter Solstice: Sun enters Capricornus. Winter begins Dec. 21, 9h. 4m., P.M.

Morning Stars

Mercury about March 22, July 20 and November 9.
Venus until July 1.
Mars until December 21.
Jupiter from April 6 to October 28.
Saturn until June 6; after December 13 to end of year.

Evening Stars

Mercury about February 8, June 2 and September 29.
Venus after July 1 to end of year.
Mars after December 21 to end of year.
Jupiter until April 6; after October 28 to end of year.
Saturn from June 6 to December 13.

PLANETS BRIGHTEST, 1928

Mercury—February 6, May 8, August 4 and November 7.
Venus —Not during year.
Mars —December 21.
Jupiter —October 28.
Saturn —June 6.
Uranus —September 28.
Neptune—February 17.

CHARACTERS OF THE CONSTELLATIONS

♈ Aries, the Ram.
♉ Taurus, the Bull.
♊ Gemini, the Twins.
♋ Cancer, the Crab.
♌ Leo, the Lion.
♍ Virgo, the Virgin.
♎ Libra, the Balance.
♏ Scorpio, the Scorpion.
♐ Sagittarius, the Bowman.
♑ Capricornus, the Goat.
♒ Aquarius, the Waterman.
♓ Pisces, the Fishes.

ASTRONOMICAL CHARACTERS EXPLAINED

New Moon.
First Quarter.
Full Moon.
Last Quarter.

☊ Ascending Node.
☋ Descending Node.
☊ Moon at greatest declination North.
☋ Moon at greatest declination South.
☾ Moon in Apogee, farthest from the Earth.
☽ Moon in Perigee, nearest to the Earth.

PLANETS AND ASPECTS

☉ Sun.
⊕ Earth.
☾ Moon.
☿ Mercury.
♀ Venus.
♂ Mars.
♃ Jupiter
♄ Saturn.
♅ Uranus.
♆ Neptune.

☌ Conjunction, or planets in the same longitude.
✳ Sextile, when they are 60 degrees apart.
□ Quartile, when they are 90 degrees apart.
△ Trine, when they are 120 degrees apart.
☍ Opposition, when they are 180 degrees apart.

ECLIPSES, 1928 (STANDARD TIME)

IN the year 1928 there will be five Eclipses, three of the Sun and two of the Moon.

I. A TOTAL ECLIPSE OF THE SUN, MAY 17

Invisible to North America. Visible to the southern part of Africa, the extreme southern end of South America and the South Atlantic Ocean.

II. A TOTAL ECLIPSE OF THE MOON, JUNE 3

The beginning visible to North America except the northeastern portion, South America except the eastern part, Australia and the eastern border of Asia; the ending visible to Australia and Asia except the western part. Occurring as follows:

Standard	*Eastern*	*Central*	*Mountain*	*Pacific*
	h. m.	h. m.	h. m.	h. m.
Moon enters Penumbra	4 5 M.	3 5 M.	2 5 M.	1 5 M.
Moon enters Shadow	Invisible	4 18 M.	3 18 M.	2 18 M.
Total Eclipse begins	Invisible	Invisible	4 31 M.	3 31 M.
Middle of Eclipse	Invisible	Invisible	Invisible	4 9 M.

First contact of shadow, 85 degrees from the north point of the Moon's limb toward the east.

Magnitude of Eclipse = 1.247 (Moon's diameter = 1.0).

III. A PARTIAL ECLIPSE OF THE SUN, JUNE 17-18

Invisible to North America. Small and unimportant. Visible in the Arctic regions.

IV. A PARTIAL ECLIPSE OF THE SUN, NOVEMBER 12

Invisible to North America. Visible to Europe except the southwestern tip, the western and central parts of Asia and the northeastern edge of Africa.

V. A TOTAL ECLIPSE OF THE MOON, NOVEMBER 26-27

The beginning visible to North and South America, the western edge of Europe and the northeastern part of Asia; the ending visible to North America, the northwestern part of South America, Australia except the western part and the eastern part of Asia. Occurring as follows:

Standard	*Eastern*	*Central*	*Mountain*	*Pacific*
	d. h. m.	d. h. m.	d h. m.	d. h. m.
Moon enters Penumbra	27 1 25 M.	27 0 25 M.	26 11 25 A.	26 10 25 A.
Moon enters Shadow	27 2 24 M.	27 1 24 M.	27 0 24 M.	26 11 24 A.
Total Eclipse begins	27 3 33 M.	27 2 33 M.	27 1 33 M.	27 0 33 M.
Middle of Eclipse	27 4 1 M.	27 3 1 M.	27 2 1 M.	27 1 1 M.
Total Eclipse ends	27 4 29 M.	27 3 29 M.	27 2 29 M.	27 1 29 M.
Moon leaves Shadow	27 5 39 M.	27 4 39 M.	27 3 39 M.	27 2 39 M.
Moon leaves Penumbra	27 6 38 M.	27 5 38 M.	27 4 38 M.	27 3 38 M.

First contact of shadow, 84 degrees from the south point of the Moon's limb toward the east.

Magnitude of Eclipse = 1.155 (Moon's diameter = 1.0).

FIXED AND MOVABLE FESTIVALS, 1928

Epiphany	*January 6*
Septuagesima Sunday	*February 5*
Sexagesima Sunday	*February 12*
Quinquagesima (Shrove Sunday)	*February 19*
Ash Wednesday	*February 22*
First Sunday in Lent	*February 26*
St. Patrick	*March 17*
Annunciation (Lady Day)	*March 25*
Palm Sunday	*April 1*
Maundy Thursday	*April 5*
Good Friday	*April 6*
Easter Sunday	*April 8*
Low Sunday	*April 15*
Rogation Sunday	*May 13*
Ascension Day (Holy Thursday)	*May 17*
Pentecost (Whit-Sunday)	*May 27*
Trinity Sunday	*June 3*
Corpus Christi	*June 7*
St. John Baptist	*June 24*
Michaelmas Day	*September 29*
First Sunday in Advent	*December 2*
Christmas Day	*December 25*

The year 5689 of the Jewish Era begins on September 15, 1928.

The year 1347 of the Mohammedan Era begins on June 20, 1928.

The January Birthstone

THE GARNET

By her who in this month is born
No gems save Garnets should be worn.
They will insure her constancy,
True friendship and fidelity.

Some Notable Events of January

January 8, 1815—The Americans under Andrew Jackson, defeated the British under Packenham, in Battle of New Orleans.

January 8, 1825—Eli Whitney, inventor of the cotton-gin, died in New Haven.

January 8, 1916—Ada Rehan, prominent actress, died in New York City.

January 11, 1757—Alexander Hamilton born at Nevis, West Indies.

January 12, 1900—James Martineau, theologian and philosopher, died in London.

January 18, 1871—German Empire re-established.

January 20, 1896—William H. Furness, clergyman and author, died in Philadelphia.

January 22, 1901—Queen Victoria of England died in the Isle of Wight.

A Century Ago

Prominent Events in 1817

FEBRUARY 20, under a resolution offered in Congress by Daniel Webster, the Government began specie payments.

June 18, Waterloo bridge, London, opened.

September 22, specie payments resumed in England.

Mississippi admitted to the Union.

James Monroe and Daniel D. Tomkins President and Vice-President of the United States.

DeWitt Clinton began his system of canals in New York.

The Seminole war breaks out.

The Second Bank of the United States went into operation in Philadelphia.

The chain bridge across the Schuylkill river, Philadelphia, near the Falls, put in operation.

The American Sunday-school Union formed in Philadelphia in May, with Alexander Henry President.

The February Birthstone

THE AMETHYST

The February-born shall find
Sincerity and peace of mind,
Freedom from passion and
from care,
If they the Amethyst will wear.

Some Notable Events of February

February 4, 1881—Thomas Carlyle, famous British author and philosopher, died at Chelsea, London.

February 20, 1920—Rear-Admiral Robert E. Peary, who claimed discovery of the North Pole, died in Washington, D. C.

February 22, 1732—George Washington born in Westmoreland County, Va.

February 26, 1842—Camille Flammarion, famous astronomer, born in France.

St. Valentine's Day

IT is a popular error, says the *Philadelphia Public Ledger,* to assume that February 14 is to be associated with a single saint. The day belongs to no fewer than seven persons in the comprehensive ecclesiastical calendar, and the head of an eighth is venerated at this time.

They came from France, Belgium, Spain and Africa. The best-known members of the group were a bishop of Umbria and a priest of Rome, both of the third century A. D. History and legend are vague in reciting the details of their personal history.

The lovers' festival is apparently to be connected, not with the birthday of these holy men, but with an early pagan festival that was part of the Roman Lupercalia.

The medieval custom in England and on the Continent was to put the names of young men and women in a jar, and draw them out on St. Valentine's eve. Those whose names were thus linked had to make presents to each other and agree to be each other's valentines for the ensuing year.

By and by the women were released from the obligation to make gifts, and only the men sent presents or missives expressive of affectionate sentiment.

The March Birthstone

THE AQUAMARINE

Who on this world of ours their eyes
In March first open, shall be wise;
In days of peril, firm and brave,
And wear an Aquamarine to the grave.

Some Notable Events of March

March 5, 1770—Boston Massacre.

March 9, 1862—Battle between the *Monitor* and the *Merrimac*.

March 15, 1767—Andrew Jackson, seventh President of the United States, born in Mecklenburg County, North Carolina.

March 15, 1781—Battle of Guilford Courthouse, N. C., between Americans under General Greene and the British under Cornwallis.

March 30, 1867—Alaska purchased by United States from Russia.

When It Happened

TELEPHONE invented, 1861. French and Indian War in America, 1754.

Modern needles first came into use in 1545.

Coaches were first used in England in 1569.

French Revolution, 1789; Reign of Terror, 1793.

The first newspaper advertisement appeared in 1652.

Glass mirrors were first made by Venetians in the 13th century. Polished metal had been used for mirror purposes before that time.

The first iron ore discovered in this country was found in Virginia in 1715.

Jamestown, Va., first permanent English settlement in America, founded 1607.

Books in their present form were invented by Attalus, King of Pergamos, in 887 A. D.

The first illumination with gas was in Cornwall, England, 1792; in the United States, at Boston, 1822.

The great wall of China, built 200 B. C., is 1,250 miles in length, 20 feet high, and 25 feet thick at the base.

Printing was known in China in the sixth century; introduced into England about 1474; America, 1536.

The April Birthstone

THE DIAMOND

She who from April dates her years
Diamonds should wear, lest bitter tears
For vain repentance flow. This stone
Emblem of innocence is known.

Some Notable Events of April

April 6, 1909—Robert E. Peary claimed discovery of North Pole.

April 9, 1865—Lee surrendered to Grant at Appomattox.

April 13, 1743—Thomas Jefferson born at Shadwell, Albemarle County, Va.

April 19, 1775—Battle of Lexington, the first engagement of the American Revolution.

April 19, 1861—Federal troops attacked while marching through Baltimore.

April 20, 1789—Public demonstration for President-elect Washington as he entered Philadelphia en route to New York to be inaugurated.

April 20, 1898—President McKinley signed the resolutions of Congress regarding intervention of Cuba. Ultimatum to Spain cabled to Minister Woodford.

April 21, 1827—The Hicksite sect of Friends (Quakers) was founded.

April 21, 1836—Sam Houston defeated the Mexicans in battle of San Jacinto, deciding the independence of Texas.

April 22, 1794—Act of Assembly abolished capital punishment in Pennsylvania for all crimes except murder.

April 22, 1865—Body of President Lincoln lay in state in Philadelphia.

April 23, 1564—William Shakespeare, the world's greatest literary genius, born at Stratford-on-Avon, England. Died there April 23, 1616.

April 23, 1831—Miniature locomotive set in motion in the Museum, Philadelphia, by Mathias H. Baldwin.

April 23, 1898—President McKinley called for 125,000 volunteers for the war with Spain.

The December Birthstone

THE TURQUOISE

If cold December gave you birth,
The month of snow and ice and mirth,
Place in your hand a Turquoise blue;
Success will bless whate'er you do.

Some Notable Events of December

December 2, 1823—"Monroe Doctrine" enunciated by President Monroe.

December 2, 1859—John Brown, abolitionist, hanged.

December 3, 1818—Illinois admitted to the Union.

December 4, 1682—First Pennsylvania Assembly met at Chester, Pa.

December 4, 1833—American Anti-Slavery Society formed at Philadelphia.

December 5, 1917—Committee on Foreign Affairs of United States House of Representatives voted unanimously that a state of war existed between the United States and Austria-Hungary.

December 10, 1817—Mississippi admitted to the Union.

December 10, 1852—Pennsylvania R. R. of America opened all-rail route to Pittsburg.

December 10, 1898—Peace Treaty of U. S. with Spain.

December 11, 1816—Indiana admitted into the Union.

December 13, 1863—Battle of Fredericksburg, Va.

December 14, 1799—George Washington died at Mt. Vernon, Va.

December 14, 1819—Alabama admitted into the Union.

December 16, 1773—"Boston Tea Party" took place in Boston Harbor.

December 21, 1620—"Mayflower" Pilgrims landed at Plymouth Rock (old style date, Dec. 11th).

December 24, 1814 — Treaty of Ghent.

December 27, 1862—Union League organized, Philadelphia.

December 28, 1846—Iowa admitted to the Union.

December 28, 1856—Woodrow Wilson born at Staunton, Va.

December 29, 1845—Texas admitted to the Union.

LEGAL HOLIDAYS

As Observed in the Various States

January 1.—New Year's Day: In all the States, Territories, District of Columbia and Colonial possessions.

January 8.—Anniversary of the Battle of New Orleans: In Louisiana.

January 19.—Lee's Birthday; in Ala., Ark., Fla., Ga., Miss., N. C., S. C. and Tenn.

January 19.—Lee-Jackson Day: In Virginia.

February 12.—Georgia Day: in Georgia. (Observed by public schools. Holiday only when so declared by Governor).

February 12.—Lincoln's Birthday: In Alaska., Cal., Col., Conn., Del., Ill., Ind., Ia., Kan., Ky., Mich., Minn., Mo., Mont., Neb., Nev., N. J., N. Y., N. Dak., Ohio, Ore., (school and court holiday), Penn., S. Dak., Tenn., Utah, Virgin Islds., Wash., W. Va. and Wyo.

February 14.—Admission Day: In Arizona.

February 21.—Mardi Gras (Shrove Tuesday): In Ala., Fla. (in counties having a Carnival Association) and La. (in the Parish of Orleans).

February 22.—Washington's Birthday: In all the States, Territories, District of Columbia and Colonial possessions.

March 2.—Sam Houston Memorial Day: In Texas.

March 3 or 5.—Pennsylvania Day: In Pennsylvania. (Observed by public schools; by proclamation of Governor).

March 22.—Emancipation Day: In Porto Rico.

March 25.—Maryland Day: In Maryland.

March 30.—Seward Day: In Alaska.

April 5.—Maundy Thursday: In Philip. Islands and Virgin Islands.

April 6.—Good Friday: In Conn., Del., Fla., La., Md., Minn., N. J., Penn., Philip. Is., Porto Rico, S. C., (City of Charleston only), and Virgin Is.

April 9.—Easter Monday: In Virgin Is.

April 12.—Halifax Independence Resolutions: In North Carolina.

April 13.—Thomas Jefferson's Birthday: In Alabama.

April 16.—De Diego's Birthday: In Porto Rico.

April 19.—Patriots' Day: In Maine and Massachusetts.

April 21.—Anniversary of the Battle of San Jacinto: In Texas.

April 26.—Memorial Day: In Ala., Fla., Ga. and Miss.

April 26.—Fast Day (usually last Thursday; by proclamation): In New Hamp.

May 1.—Labor Day: In Philippine Islands.

May 10.—Confederate Memorial Day: In North Carolina and S. Carolina.

May 20.—Anniversary of the Signing of the Mecklenburg Declaration of Independence: In North Carolina.

May 28.—Whit Monday: In Virgin Islands.

Legal Holidays 1928—(Continued)

May 30.—Memorial Day: In all the States, Territories, District of Columbia and Colonial possessions except Ala., Ark., Fla., Ga., La., Miss., N. C., S. C. and Texas.

June 3.—Jefferson Davis' Birthday: In Ala., Ark., Fla., Ga., Miss., S. C., Tex. and Virginia.

June 3.—Confederate Memorial Day: In Louisiana and Tennessee.

June 11.—Kamehameha Day: In Hawaii.

June 15.—Pioneer Day: In Idaho.

June 17.—Bunker Hill Day: In Boston. (Not a legal holiday, but banks close by mutual agreement).

July 4.—Independence Day: In all the States, Territories, District of Columbia and Colonial possessions.

July 13.—Forrest's Birthday: In Tennessee.

July 17.—Muñoz Rivera Day: In Porto Rico.

July 24.—Pioneer Day: In Utah.

July 25.—Occupation Day: In Porto Rico.

July 25.—Supplication Day: In Virgin Islands.

July 27.—Birthday of José Celso Barbosa: In Porto Rico.

August 1.—Colorado Day: In Colorado.

August 13.—Occupation Day: In Philippine Islands.

August 16.—Bennington Battle Day: In Vermont.

September 3.—Labor Day: In all the States, Territories, District of Columbia and Colonial possessions, except Wyoming and Philippine Islands. In Wyoming by proclamation of the Governor.

September 9.—Admission Day: In California.

September 12.—Defenders' Day: In Maryland.

September 15.—Regatta Day (3d Saturday): In Hawaii.

October 9.—Fraternal Day (2d Tuesday): In Alabama.

October 12.—Columbus Day: In Ala., Ariz., Cal., Col., Conn., Del., Idaho, Ill., Ind., Kan., Ky., La., Md., Mass., Mich., Mo., Mont., Neb., Nev., N. H., N. J., N. Mex., N. Y., N. Dak., Ohio, Ore., Penn., Porto Rico, R. I., Tex., Utah, Vt., Wash. and W. Va. School holiday in Maine.

October 12.—Farmers' Day (2d Friday): In Florida.

October 18.—Alaska Day: In Alaska.

October 25.—Thanksgiving Day: In Virgin Islands.

October 31.—Admission Day: In Nevada.

November 1.—All Saints' Day: In Louisiana.

November 6.—Election Day: In all the States, Territories and Colonial possessions except Ala., Conn., Ga., Ill., Ia., Kan., Ky., La., Me., Mass., Miss., N. Mex., Philippine Islands, Utah and Vt. In Illinois a holiday in Chicago, Springfield and a few other cities. In Ohio from 12 m. to 5.30 p. m.

November 11.—Armistice Day: In Ala., Ariz., Ark., Cal., Col., Del., Fla., Ga., Hawaii, Idaho, Ill., Kan., Ky., La., Me., Minn., Miss., Mo., Mont., Neb., Nev., N. J., N. Mex., N. C., N. Dak., Okla., Ore. (school holiday), Penn., R. I., S. Car., S. Dak., Tenn., Tex., Utah, Vt., Va. and Wyo. Md. and Wash. by proclamation of the Governor.

November 29.—Thanksgiving Day: In all the States, Territories, District of Columbia and Colonial possessions except Utah, where it is not a legal holiday but is always so observed.

November 30.—Bonifacio's Day: In Philippine Islands.

December 25.—Christmas Day: In all the States, Territories, District of Columbia and Colonial possessions.

December 26.—Second Christmas Day: In Virgin Islands.

December 28.—Woodrow Wilson's Birthday: In South Carolina.

December 30.—Rizal Day: In Philippine Islands.

Arbor Day is observed by the States on different days, usually in the Spring; in Georgia, in December. The dates in the same States often vary, from year to year, by proclamation.

Mother's Day is observed on the second Sunday in May.

Flag Day, June 14, is widely observed, but not as a legal holiday.

Saturday Afternoon is a holiday in many of the States and Cities and in the District of Columbia.

When a Holiday falls on a Sunday, the following day is generally observed.

This Is Leap Year

THE calendar year contains 365 days or 52 weeks and one day, and leap year, 366 days, or 52 weeks and two days.

This irregularity is explained by the fact that in the early days the calendar was roughly arranged by the moon and seasons.

Julius Caesar, in 46 B. C., planned a calendar of 365¼ days. By 1582, this arrangement had accumulated an error of ten full days, when Pope Gregory amputated the ten days and with the astronomer, Clavius, revised the Julian calendar, planning a flat year of 365 days, adding one day every four years, except that in the last year of each century, unless it was dividable by 400, when it also was a leap year, such as 1600, 2000, etc.

In this way the odd time is so disposed that it will not amount to one whole day more often than 3,000 years.

The Making of the Calendar

IN THE course of the year, men, since time immemorial, have marked four great events: The shortest day (the Winter solstice), the longest day (the Summer solstice), and the times halfway between, when the sun was above the horizon the same length of time as it was below the horizon (the Spring and Autumn equinoxes). Each of these four times has been regarded at different epochs as the beginning of the year. And yet so much sacredness was attached to the new moon that it has entered largely into the choosing of the exact day to be celebrated as the New Year's Day.

The Hebrew calendar dates the New Year from (about) the Autumn Equinox, the exact time varying with the relation of the new moon to the equinox. That is why they celebrate their holy days of the New Year in September, but not on the same days of the month in successive years. It is in just the same fashion that Easter is determined — the relation of the phases of the moon to the Spring equinox.

Where the Ocean Mines Coal

ON the beach of Buckhaven, Scotland, the sea piles up coal some two or three feet thick. From the town come men, women and children with buckets, boxes, bags and wheelbarrows to get the family supply.

The coal is actually mined by the sea. Ground-swells break away the seams outcropping in the Firth of Forth, and slowly carry the treasure to the shore. In stormy weather the product greatly increases.—*New York World.*

Domestic Postage

First-Class Matter

Letters and Written Matter

sealed or fastened so that it cannot be easily examined, 2c per ounce or fraction.

Drop Letters

should be mailed at the rate of 2c per ounce or fraction thereof, including delivery at letter-carrier offices, and 1c per ounce when mailed, at non-carrier offices for local delivery.

Private Mailing-Cards (Post Cards)

Those which are entirely in print, or bear written or typewritten messages, will be subject to 2c postage.

Government postal cards will be subject to 1c postage.

Second-Class Matter

includes all printed newspapers and periodicals that have been entered as second class matter. To the general public the rate is 2c for 2 ounces or fraction thereof up to and including 8 ounces. Over 8 ounces the Parcel Post rate applies.

Third-Class Matter

Circulars, printed matter, merchandise, will be subject to postage rate of 1½c for each 2 ounces or fraction of 2 ounces, up to and including 8 ounces in weight, except that the rate on books, catalogues having 24 or more pages, including cover, seeds, cuttings, bulbs, roots, scions and plants, will be 1c for each 2 ounces on parcels not exceeding 8 ounces in weight.

Fourth-Class Matter (Parcel Post)

includes books, circulars, proof sheets, corrected proof sheets and manuscript copy accompanying same, merchandise, printed matter (except publications entered as second-class matter) and all other available matter not included in first, second or third classes, weighing over 8 ounces.

Postage on Fourth-Class Matter

The parcel post pound or zone rates (see next page) will apply.

Postal Information—(Continued)

Fourth-Class Matter *(Continued)*

Parcel Post—(Continued) Zone Rates

	1st lb.	Each additional lb. (2 lbs.)
Local	.05	.01
First (0-50 miles)	.05	.01
Second (50-150 miles)	.05	.01
Third (150-300 miles)	.06	.02
Fourth (300-600 miles)	.07	.04
Fifth (600-1000 miles)	.08	.06
Sixth (1000-1400 miles)	.09	.08
Seventh (1400-1800 miles)	.11	.10
Eighth (over 1800 miles)	.12	.12

The above rates do not include the 2c service charge required upon each parcel.

Service Charge (Parcel Post)

In addition to the postage there will be a service charge of 2 cents for each parcel of fourth-class matter, such charges to be prepaid in the same manner as the regular postage. The amount of the service charge must therefore be included in the amount of postage.

Special Handling

Whenever, in addition to the postage and service charge, 25 cents postage is affixed to a parcel of fourth-class matter with the words "Special Handling" written or printed upon the wrapper, such parcels will receive the same expeditious handling, transportation and delivery that is accorded to mail matter of the first class.

Parcels to be given special handling will be chargeable with the regular fourth-class rate together with the 2 cent service charge and 25 cents additional postage on each parcel, all to be fully prepaid.

Such parcels should be prominently indorsed by the sender, "Special Handling," in space immediately below the postage stamps and above the address.

Size and Weight of Packages

A parcel post package may not exceed 84 inches in length and girth combined. The limit of weight is 70 lbs. for the local, first, second and third zones, and 50 lbs. for other zones.

Insurance

Fourth-class matter may be insured against injury, loss or rifling in an amount equivalent to its actual value, on payment of the following fees, in addition to postage.

Value $5.00 or less, fee 5c; $5.00 to $25.00, fee 8c; $25.00 to $50.00, fee 10c; $50.00 to $100.00, fee 25c.

The sender must fill out an insurance tag, which will be furnished him on request to be attached to the parcel.

Postal Information—(Continued)

Fourth-Class Matter *(Continued)*

C. O. D. Service

Domestic Third and Fourth-Class Matter may be sent C. O. D., and price of article and all charges thereon will be collected from the person addressed, upon delivery. The fee is 12 cents, in addition to postage, when amount to be remitted does not exceed $10.00; 15 cents when amount does not exceed $50.00, and 25 cents when amount to be remitted does not exceed $100.00. These fees are paid by postage stamps affixed to parcel, which is automatically insured against non-receipt of returns, or loss, rifling or damage.

Examination of contents is not permitted before delivery and payment of charges.

Registered Mail

Registry fees on domestic and foreign mail shall be at the following rates and in addition to the regular postage, both of which shall be prepaid by stamps affixed, viz.:

For domestic articles of the first class, indemnified for $50 or less, 15 cents; over $50 and not in excess of $100, 20 cents.

For domestic articles of the second class, for which no indemnity is provided, and for domestic articles of any class without intrinsic value for which indemnity will not be allowed, 15 cents.

For domestic articles of the third class, indemnified for not exceeding $25, 15 cents.

For domestic, fourth-class (parcel post) articles sealed and prepaid at the first-class rate of postage, the same as for first-class mail.

For articles of whatever class addressed to foreign countries, 15 cents.

Charge for Return Receipt

Whenever the sender shall so request, and upon payment of a fee of 3 cents, a receipt shall be taken on the delivery of any registered mail matter, showing to whom and when the same was delivered, which receipt shall be returned to the sender.

Money Order Rates

For sums not exceeding $2.50, 5c;

Over $ 2.50, 7c.	Over $ 5.00, 10c.
Over 10.00, 12c.	Over 20.00, 15c.
Over 30.00, 15c.	Over 40.00, 18c.
Over 50.00, 18c.	Over 60.00, 20c.

Over $75.00, not exceeding $100.00, 22c.

Domestic rates of postage apply to all parts of the United States and its possessions. The term "Possessions of the United States" includes Hawaii, Porto Rico and the Virgin Islands,

Postal Information—(Continued)

Money Order Rates *(Continued)*

Philippines, Guam, Tutuila, Manua and the Canal Zone.

Domestic rates and conditions apply to mail matter addressed to officers or members of the crews of vessels of war of the United States, the Naval Hospital at Yokohama, and, with certain exceptions, to Canada, Cuba, Mexico and the Republic of Panama.

Aeroplane Mail

consisting of first-class matter, including sealed packages not exceeding 84 inches in length and girth, combined, and 50 pounds in weight, is chargeable with postage as follows:

Air Mail, 10 cents for each half-ounce or fraction of half-ounce, regardless of distance in the domestic mails.

No charge whatever for train or any other services.

Special aeroplane stamps are not required, but any stamps good for postage may be used.

Foreign Postage

Letters

First ounce or less, 5c; each additional ounce, 3c. Postal cards, 3c where the above rate applies. Newspapers and other printed matter, 1c for 2 ounces. Samples of merchandise, 4 ounces or less, 2c; each additional- two ounces, 1c. Limit of weight, 18 oz. Registration fee, 15c.

Note: The letter rate to Great Britain and Ireland, Newfoundland, Bahamas, Barbadoes, British Guiana, British Honduras, Dominican Republic, Trinidad, Dutch West Indies, Leeward Islands and New Zealand is 2 cents for each ounce or fraction thereof.

Foreign Parcel Post

Postage 14 cents a lb. or fraction thereof, save to Guadaloupe, Japan and Haiti, where rate is 12c. Packages for Canada must not exceed 15 lbs. in weight; for Cuba, the limit is 11 lbs. Parcels weighing up to 22 lbs. may be sent to Mexico, and up to 50 lbs., except as noted in "Postal Guide" to Panama. The limit of weight for all other countries is 11 lbs. to 22 lbs. (See Postal Guide.)

Customs Declarations

A Customs Declaration Form 2966 (which will be furnished on application) must be filled out, accurately describing contents, value, etc., of the parcel.

Postal Information—(Concluded)

Foreign Special-Delivery Service

Letters, postcards, printed matter, commercial papers, and samples (ordinary and registered) addressed for delivery in Australia, Austria, Belgium, China, Cuba, Czechoslovakia, Danzig (Free City of), Denmark, Estonia, Finland, France, Germany, Great Britain (England, Scotland and Wales), Hungary, Irish Free State, Italy, Japan, Lithuania, Mexico (unregistered), Northern Ireland, Netherlands, Norway, Panama, Poland, Portugal, Sweden and Switzerland will be given the benefit of special-delivery service *when prepaid* 20 *cents, in addition to the regular postage,* by United States special delivery or other stamps which are affixed to each article, and which should in all cases be boldly marked, *in red ink,* "Express", directly below but never on the stamp.

HOW WEATHER FORECASTS ARE MADE

DID you ever read a weather forecast, and then look out of the window to see if the weather was in agreement with it, and all without giving a thought to the period for which the forecast was made?

Many people do that very sort of thing, yet it is realized, by those who are in a position to know, that the errors committed in interpreting the forecasts are greater than those contained in them.

For example, let us say that on a certain Tuesday, you buy an afternoon paper to read on the way home. You turn to the weather forecast and read: "Fair and somewhat cooler tonight; Wednesday mostly cloudy." Perhaps it has rained at intervals all day and is still heavily clouded and gloomy. You remark to your seatmate that, "There is another weather forecast gone wrong," and he remarks, "As usual."

A thought has not been given to the fact that the period covered in the forecast has not begun, and that its accuracy cannot be judged of properly until the specified time has ended. On the next morning, you will be able to pass on the accuracy of the night forecast, and at the end of the day, on that for Wednesday. Think of that, the next time you read a weather forecast.

How do you think the weatherman arrived at the forecast? Do you think that he recognizes a lot of weather signs and sayings, or that he consults divers mysterious instruments for his information? Be assured that neither signs nor instruments, nor the local appearances of the weather, enter into his calculations to any considerable extent. He has several automatic recording instruments, but they are for the purpose of making accurate and permanent records of the weather as it occurs, and play a small part in the forecast work.

A weather forecaster's observations cover a much larger area than his visual horizon. In fact, they cover practically all of the United States and Canada. Each morning and evening he receives something over 200 telegrams from all parts of that vast area, and as fast as the messages come in, the conditions are copied in their proper places on a large base map. When the messages are all received and recorded, and the many observation areas thus connected up, they resolve into a vast bird's-eye view of the weather for the whole country.

With this map the weatherman can outline the storm areas, and can see how far they have drifted across the country, and in what direction since the preceding map was made. The finished map pictures the clear weather areas, the cloudy areas, and the rain areas. It shows the direction and velocity of the wind in each

Forecasting the Weather—(Concluded)

reporting district, together with the temperature, and all such miscellaneous phenomena as frosts, fogs, et cetera.

It may seem at first thought that, with such complete information, the forecasts should be nearly perfect, whereas they contain an average error of about 20 per cent. The explanation is that most of the errors occur for places that are near the borders of the storm areas. Well within the rain areas the forecasts for rain are usually verified, while out and well away from the storm path the forecasts for fair weather are usually correct.

Around the more or less jagged edges of the storms there are uncertain conditions which, as the storms drift across the country, make forecasting exceedingly difficult.

Storm areas are large atmospheric disturbances, usually covering several States. During the cold months, a rain forecast is more likely to be verified than during the summer months, when the rain areas are made up of a large number of local thunderstorms. Local thunderstorms seldom hit all points within the rain area.

The map method of forecasting, as conducted by the Weather Bureau, enables the forecaster to follow severe disturbances, such as hurricanes and cold waves, and to issue warnings ahead of them with great accuracy. That is the prime object to be attained in the maintenance of the Weather Bureau. The map makes possible the forecast of local conditions and day-to-day changes with a fair degree of accuracy, merely as a matter of convenience.

The local, day-by-day forecasts have no great value in the matter of the saving of lives and property, and occupy the position of a side issue to the larger work of storm warnings; but, strange to say, they constitute that feature by which the great general public judges the forecast.

Storms are mobile disturbances in the atmosphere, and their movements and developments are so irregular that the weather map makes it possible to foretell conditions only from 36 to 48 hours in advance. Long-range forecasts have no foundation.

Unfortunately, there is nothing yet known in science that enables any man to estimate weather conditions more than two or three days in advance. The so-called forecasts of the character of coming seasons are valueless.

Named from The Dragon

THE popular house plant, the Dracæna, is also known as the "Dragon Tree." It received its name from "Drakaina," signifying "a female dragon." Its juice, when thickened, becomes a powder, which in the eyes of the ancients resembled, in its color, dragons' blood.

COOKERY CRAFT

Who Likes Tarts and Fluffy Pastry?

Plain Pastry

Three cups of flour, 1 teaspoonful salt, 1 cup butter, lard or other shortening, ½ to ¾ cup of cold water, ½ teaspoonful baking powder.

Mix and sift the dry ingredients. Add shortening, and work into flour mixture with a fork or pastry wheel. When thoroughly mixed, cut in the cold water with a knife. Roll on a floured board. Pastry should be baked in a hot oven.

Hot-Water Pastry

Three cups of flour, 1 teaspoonful salt, 1 cup of butter, lard or other shortening, 2/3 cup boiling water.

Mix and sift the dry ingredients. Pour the boiling water over the shortening to melt it. Add to the flour mixture. Cut in all the liquid with a knife. Chill thoroughly—overnight if possible. Roll and bake, as any pastry.

Fillings for Tarts

For a change, try a tart of plums or apples, stewed with sugar and put through the sieve. Place layers of the stewed fruit in the pie dish with layers of sliced banana, orange marmalade or apricot jam. Apple and blackberry, and apple and mulberry make good tarts. When using apples be sure that all core is removed.

A pineapple and apple tart is a pleasing novelty. Use canned Hawaiian pineapple and remove all eyes and core. Partly cook the apple and then add the pineapple; put crust in position, and bake.

Cookery Craft—(Continued)

Flaky Pastry

Three cups of boiling water, 1 teaspoonful of salt, 1 cup of butter or other shortening, ¾ cup cold water.

Mix and sift the dry ingredients. Work in half the shortening with a fork or pastry wheel. Cut in the cold water. Roll in a rectangular sheet, spread with ¼ of remaining shortening. Fold over in 3 folds. Chill and roll. Cut in a rectangular sheet as before. Continue until all shortening is used. Chill between each rolling.

To Make a Fruit Tart

If the fruit is hard and under-ripe, it should be stewed with sugar before being placed in the pie dish, otherwise the pastry will be overdone before the contents are sufficiently cooked. Use plenty of fruit and pile high in the centre.

If the fruit has not been stewed with sugar put in raw fruit and sugar. If the fruit is dry, add also one tablespoonful or so of cold water. Wet the edge of the pie dish with cold water before putting on the cover of pastry. The edges should be neatly dented with the prongs of a fork and trimmed. After baking, the tart should be powdered with sugar.

Allow about 2 lb. of picked fruit for eight persons.

The English Open Tart

The English open tart is more often than not baked on a tin plate, spread with jam and ornamented with trellis work of pastry. This is made by cutting thin strips of pastry and rolling them spiral fashion. The edge of the tart should be corrugated and neatly trimmed at the edge.

Lemon tart is an open tart filled with lemon cheesecake mixture. Golden tart is an open tart filled with golden syrup thickened with fine breadcrumbs, and well-flavored with grated lemon rind and strained lemon juice.

Choux Pastry

Three gills cold water, 3 oz. butter, 1 oz. sugar, 6 oz. flour, 3 eggs, vanilla.

Put the water, butter and sugar into an enamel-lined pan; when boiling, remove the pan from the fire and stir in quickly the flour, beat till smooth, cook till it leaves the sides of the pan clear, then take from the fire and beat in separately the eggs, and flavor with vanilla. Shape out on to a greased bakery sheet by means of a bag and large, plain forcing pipe.

Bake in a slow oven till of a pale brown, and when cold, just open sufficiently to fill with whipped cream, custard or chocolate custard, by means of the bag and pipe. Press together again and serve plain, or ice the top of the eclairs with white sugar icing or chocolate icing.

Cookery Craft—(Continued)

Perhaps These Are New to You

Delicate Indian Pudding

Ingredients: 1 quart of milk; 6 tablespoonfuls of yellow cornmeal; 1 teaspoonful of ginger; 2 tablespoonfuls of butter; 4 tablespoonfuls of sugar; 2 eggs; 1 tablespoonful of salt.

Bring the milk to a boil in a double boiler; sprinkle the meal into it, stirring constantly, and cook 12 minutes, stirring often. Add the butter, and pour the mixture over the rest of the ingredients (which have been beaten together). Bake slowly 1 hour. Serves four persons (½ of a cup each).

Casserole of Chicken (Florentine)

Take a chicken (or rabbit), about 4 strips of bacon, 1 onion, ½ pint of stock, the tiniest pinch of powdered mace, pepper and salt, 1 dessertspoonful of brown glaze; parsley, lemon peel, 2 cloves and 8 peppercorns, the last four ingredients all tied in a muslin bag.

Cut the chicken into neat joints, season each with pepper, salt and a suspicion of mace. Cut the strips of bacon into dice and place them in the casserole; when the fat melts, put in the chicken and the onion, very finely minced, and fry until the meat is just colored. Then add the warm stock (preferably made with the carcass of a bird), also the bag of herbs.

Put on the cover and cook very slowly for about 1½ to 2 hours, according to the age of the bird. When done, take out the bag of seasoning and strain off the gravy. Skim off any fat, and stir in a dessertspoonful of brown glaze. The chicken may be cooked whole if the casserole is sufficiently large, but in that case it needs to be served on another dish, as it is not convenient to carve it in the casserole.

Eggs and Mushrooms

Put two tablespoonfuls of butter in a pan, and when melted stir into it one tablespoonful of flour; blend well and then add half a pint of brown stock, a few mushrooms (cut in dice), salt and pepper. Allow these ingredients to simmer for ten minutes, then add six hard-boiled eggs, cut in slices, boil up and serve.

Scotch Rarebit

Cut ½ lb. of cheese in very small pieces, and add 1 oz. of fresh butter, two tablespoonfuls of fine breadcrumbs, one teaspoonful of prepared mustard, salt and pepper, and a pinch of cayenne to taste. Mix well together to a smooth paste. Have ready some buttered toast, place on a dish, spread with the mixture, and set in the oven until melted. Serve at once.

Cookery Craft—(Continued)

Refreshing Sherbets and Ices

THE warmer the weather, says *Eve,* an English publication, the more one's thoughts turn to ices and cold drinks. Among the formulæ for frozen fruits and iced beverages there given, are:

Lemon Ice

No. 1.—One quart of water, three quarters pound of granulated sugar, one and a half gills lemon juice. Boil the water and sugar to a syrup for five minutes. Allow to cool, add the juice and freeze.

No. 2.—One quart of water, three-quarters pound granulated sugar, one and a half gills lemon juice. Make a syrup of sugar and water, allowing it to boil for twenty minutes, let it cool, add the juice. Freeze and serve with crême de menthe in thin glasses.

Creme De Menthe

One quart of water, six ounces granulated sugar, three tablespoonfuls crême de menthe, a few drops of sap green coloring. Boil the sugar and water for twenty minutes to make the syrup, add the crême de menthe and sap green coloring. Let it cool. Strain and freeze.

Frozen Peaches

Two pounds peaches, one quart of water, six peach kernels, one and a half pounds of granulated sugar.

Peel the peaches, remove the stones. Pound the kernels to a paste, then add them to the sugar and water, boil for five minutes. Strain and leave to cool. When quite cold add the peaches crushed, freeze slowly. Repack and put aside to ripen.

Strawberry Granite

One pint of strawberry juice, one pint of orange juice, one and a half pounds sugar, one quart of strawberries of even size, one quart of water. Boil the sugar and water together for five minutes. Drop the whole strawberries into this syrup, lift out carefully and place them on a dish to cool, add the syrup and the orange juice. Strain, and freeze as lemon water ice. When frozen stir in the strawberries and serve in glasses.

Strawberry Ice

One quart of water, 12 oz. granulated sugar, one pint of strawberry juice, one tablespoonful lemon juice.

Make a syrup of the sugar and water and boil for twenty minutes. When quite cold add the strawberries, crushed and well squeezed through a fine hair-sieve, add the lemon juice, strain, and freeze.

Cookery Craft—(Continued)

Mint Sherbet

Six lemons, two oranges, 12 oz. granulated sugar, one pint of water, one white of egg, one large bunch of fresh green mint, a little harmless green coloring.

Squeeze out the juice of the lemons and oranges. Over the thin peelings pour the cold water and bring just to boiling point. Pour quickly over the finely chopped mint and sugar. Cover and allow it to soak for one hour. Then strain over the fruit juice. Add a few drops of green coloring and stir well. Put all together, and when cold, put into the freezer with the well-beaten white of egg and freeze. Serve in sherbet glasses, using tiny sprigs of mint, and garnish with Maraschino cherries. Serve with lamb.

Egg Lemonade

Place in a large glass a fresh egg, a teaspoonful of powdered sugar, the juice of a sound lemon. Fill up the glass with water, shake in a shaker with a little broken ice until the ingredients are thoroughly mixed, then strain and serve.

Chocolate Sauce for Ice Cream

The sauce must be made just before serving. As the ice cream is served, the hot sauce is poured over forming a sort of coating.

Put 4 oz. grated, unsweetened chocolate with 6 oz. sugar and a gill of milk into a saucepan, cook slowly until the chocolate and the sugar are dissolved, and then boil until it hardens slightly when dropped in cold water. Serve at once.

Suggestions for Sunday-Night Suppers

That hot dishes make the Sunday night supper attractive, and that those can be selected which give very little trouble in the preparation, is the common-sense viewpoint of a writer in the London *Queen,* from which the following suggestions are taken.

Beetroot Cream Soup

One oz. butter, 1½ oz. flour, 1 cooked beetroot, half a stalk of celery, 1 pint of vegetable stock, half a gill of cream, salt and pepper.

Melt the butter in a pan over the fire, but do not let it brown. Add stock, and stir till it boils. Peel and cut beetroot into shreds, and wash, trim and shred the celery, then add both to the ingredients in the pan. Cover, and boil for about half an hour, then pour through a sieve, rubbing enough of the beetroot through to give the soup a nice color. Sea-

Cookery Craft—(Continued)

son to taste and add the cream. Heat up again, without boiling, and serve very hot.

Do not boil the soup for more than half an hour, or the color will be spoiled. When celery is not at hand, one may flavor by adding celery salt, or a teaspoonful of celery seed in a muslin bag.

Chicken Marcel

Boiled chickens, ham mousse, aspic, green peas.

Take the best portions of one or two cold boiled chickens, according to the number of persons to be served, and divide neatly, putting aside the carcass for stock and the legs for a grill. Fill a souffle dish with mousse of ham, and then arrange the chicken on the top. Garnish with a little finely chopped aspic jelly and some green peas.

Mousse of Ham

One-half lb. of cooked ham, ½ pint of veloute sauce, 1 gill of liquid aspic or savory jelly, 3 gills of whipped cream, seasoning.

Put the ham three times through a sharp mincer and then work it through a sieve with the veloute. Season with salt, pepper, and cayenne. Mix in the jelly, and then the whipped cream. Taste and add more seasoning if necessary. Have ready a soufflé dish, put the mixture in and leave in a cold place until set.

Aspic Jelly

One and a half pints water, ½ gill tarragon and malt vinegar mixed, the strained juice of 1 lemon, 1 onion sliced, ½ teaspoonful salt, 2 oz. gelatine, the white and shell of 1 egg, a little parsley, 8 peppercorns.

Place all the ingredients together in a saucepan, and whisk steadily over the fire until the mixture boils; then simmer without touching it for five minutes; just move away the froth so that the liquid can pour clear, and pour it through a jelly bag or clean cloth which has been wrung out in boiling water. Pour gently a little at a time, return what has run through, and when it runs clear it is ready for use.

Other "dishes which I find popular" are home-made dried beef, cold tongue, noisettes of lamb in aspic, noisettes of lamb in mushroom sauce (hot), boned and stuffed chicken, cold braised duck with green peas, a casserole of chicken or guinea fowl, a little joint of *bœuf à la mode*, asparagus salad or cold cauliflower with mayonnaise sauce, or sliced tomato with oil and vinegar dressing.

Yes, it's easy enough to manage a hot dish for Sunday supper.

Cookery Craft—(Concluded)

Some Interesting Salads and Dressings

Chicken Salad

Take a tender cooked (boiled) chicken. Remove all the flesh, taking the skin and gristle away (use the carcass and all trimmings for stock for white soup).

Cut the meat into cubes, and add an equal quantity of celery cut into pieces of the same size. Just before serving sprinkle with lemon juice, dust with salt and paprika and add about a half-pint of mayonnaise. Toss with two forks until the salad is covered with mayonnaise.

Line the salad bowl with crisp lettuce leaves; place the meat on these, garnish with stoned olives, and the light green tops of celery; serve immediately.

Mayonnaise Dressing

Put the uncooked yolks of 2 eggs into a clean, cold soup plate. Add half a teaspoonful of salt and a dash of cayenne; work these well together, and then add, drop by drop, half a pint or more of olive oil. Stir rapidly and steadily while adding the oil.

After adding 1 gill of oil, alternate occasionally with a few drops of lemon juice or vinegar. The more oil you use, the thicker the dressing. If too thick, add half a tablespoonful or more of vinegar, to reduce it to the proper consistency. More or less oil may be added, according to the quantity of dressing wanted.

This dressing, if covered closely in a jar or tumbler, will keep in a cold place for a week.

Where a large quantity of mayonnaise is required, and expense must be taken into account, a little whipped cream stirred in at the very last moment increases its bulk.

Cooked Mayonnaise Dressing

Put the yolks of 4 eggs into a saucepan; add 4 tablespoonfuls of olive oil, 4 tablespoonfuls of water; beat for a moment. Stand the saucepan in a pan of boiling water, and beat constantly and rapidly, until the sauce is of the consistency of ordinary mayonnaise dressing.

As soon as it begins to thicken, take it from the fire; the heat of the saucepan will finish the cooking. It must not be curdled or lumpy. Pass this through a very fine sieve; add gradually a tablespoonful of tarragon vinegar and a teaspoonful of lemon juice. Stand aside until perfectly cold.

When wanted for use, fold in half a cup of cream whipped to a stiff froth.

KEEP THESE HOUSEHOLD HINTS HANDY

Cool Milk to Keep It Sweet.—Cool the milk regularly as warm weather approaches. Changeable weather may turn to sultry at any time, and milk may sour if it is not properly cooled. Use a cooler if you have it. If not, you can put the milk in a clean can, set it in running water, and stir it every five minutes for a half-hour.

Cleaning Glass Globes.—To clean glass globes, soak them in warm water with a little soda and ammonia. Rub them with a soft flannel inside and out, place in cold water, and dry them with a clean cloth, giving a final polish with a newspaper.

How To Clean a Piano Surface.—Specks and dirt may be removed by going over the surface with a damp cloth. Rub dry and go over the wood with a rag dipped in olive oil, after which polish it with a chamois leather or some pieces of old kid gloves.

Brass Bedsteads should be dusted with a soft cloth every day. If the brass looks soiled, rub it with a cloth slightly moistened with sweet oil, then polish with chamois leather.

Leather-Covered Chairs, when dull and shabby-looking, may be greatly improved in appearance by being brushed over with the white of an egg. Leather suit cases, bags and trunks may be treated in the same way.

A Little Pipeclay dissolved in the water employed in washing linen cleans the dirtiest clothes thoroughly, with a great saving of labor and soap. It will also improve the color of the linen, giving it, if used regularly, the appearance of having been bleached.

To Keep Marble Bright.—Pound together 2 oz. of washing soda, 3 oz. powdered pumice stone, and 1 oz. of powdered chalk, then pass it through a sieve. Take a little of the powder and make it into a paste with cold water, rub it over the marble, and when all stains are removed, wash it with soap and water.

Spots and Stains on Silk.—To remove spots and stains from silk without injuring the color, take five parts of water and 6 parts of alum, well pounded. Boil a short time, then pour into a vessel to cool. Previous to using, the mixture must be made warm, then wash the stained parts and leave to dry.

How to Dry Hair Brushes.—After washing they can be quickly and thoroughly dried, without injuring the bristles, by brushing them briskly with a whisk broom. There is no better way to dry hair after it has been washed than to hold up a few strands at a time and with a small whisk broom fan it, letting the broom at the same time act as a comb gently drawn through it.

Handy Household Hints—(Concluded)

When a Cake Burns and cannot be removed from the tin, stand tin on a damp cloth for a few minutes, after which the cake can be easily removed.

A little quicklime placed in the infested places will drive away any kind of ants.

To Make Leather Waterproof—Saturate it with castor oil.

To Stop Shoes from Squeaking—Drive a peg in center of sole.

To Wash Colored Cottons—Dissolve 10 cents' worth of sugar of lead in 3 to 4 parts of pure water (rain water is best). After the garments are washed and rinsed, dip them in and wring out. It sets the color and keeps it.

A good cement for broken glass is made by dissolving an ounce of isinglass in two wineglasses of spirits of wine.

To remove clinkers from stove or firebrick, put in about a peck of oyster shells on top of a brightly burning fire. This may need repeating.

To Remove Mildew from Cloth.—Put a tablespoonful of chloride of lime into a quart of water, strain it twice, then dip the mildewed places in this weak solution. Lay them in the sun. If the mildew has not disappeared when dry, repeat.

To Remove Stains from Linen.—Wet the part stained, and lay on it some salt of wormwood. Then rub without diluting it with more water.

Applying kerosene with a rag when you are about to put a stove away for the summer will prevent it from rusting.

Charcoal is recommended as an absorber of gases in the milk room, should foul gases be present. It should be freshly powdered and kept there continually.

A teaspoonful of borax put into the last water in which clothes are rinsed will whiten them surprisingly. Pound out all lumps in the borax, so it will dissolve easily.

One teaspoonful of ammonia to a teacupful of water, applied with a rag, will clean silver or gold jewelry.

Clear boiling water will remove tea stains. Pour the water through the stain, which prevents its spreading.

Salt will curdle new milk. In preparing porridge, gravies, etc., the salt should not be added until the dish is prepared.

Paint stains that are dry and old may be removed from cotton or woolen goods with chloroform. First cover the spot with olive oil or butter.

Boiling starch is much improved by the addition of sperm or salt, or both, or a little gum arabic dissolved.

INCOMES AND BUDGETS

WHAT and why is a budget?

Well, a budget is an attempt to take the "guesswork" out of personal and household expenditures. It is a detailed outline of the best way to use one's financial resources.

The need of a budget is now generally recognized in progressive business organizations, and notably in progressive governments. The Congress of the United States created a Directorship of the Budget.

As the nation needs a budget, so does the individual. So does the home.

In planning a family budget, the first consideration must be for the common requirements of the family as a group. The individual requirements of its members are supplied from the portion of the income not required in the general running costs of the home.

The following budgets, suggested by the Wanamaker Home Budget Director, deal with annual expenditures:

SINGLE PERSONS

	Incomes approximating $1200		Incomes ranging from $2400 to $5000	
Board and Lodging, including lunches and carfare	55%	$660	45%	$1080–2250
Clothing—including laundry, pressing and repairing	20%	240	18%	432– 900
Advancement and Recreation	15%	180	17%	408– 850
Savings	10%	120	20%	480–1000

FAMILIES

	Annual Income $2500 to $5000			Annual Income $6000 to $10000		
Shelter—(rent, taxes, int. on mortgage, upkeep, etc.)	24%	$576	$1200	25%	$1500	$2500
Maintenance—(gas, electricity, service, telephone, minor replacements)	15%	360	750	15%	900	1500
Food	20%	480	1000	17%	1020	1700
Clothing	17%	408	850	15%	900	1500
Advancement—(church, charity, education, health, etc.)—and Recreation	14%	336	700	13%	780	1300
Savings—(life insurance, saving accounts, building and loan assns., investment securities, permanent home equipment)	10%	240	500	15%	900	1500

Points About Banking That Everyone Should Know

IN ENDORSING a check, write your name as it appears on the face of the check. A check made payable to "John Jones, Treasurer," should be endorsed "John Jones, Treasurer," and not simply "John Jones or J. Jones."

All checks should be deposited as soon as possible, so that collections may be made promptly. If you hold a check too long, it may be returned to you marked "No funds," if the man who sent you the check has drawn out his money before your check was received for payment.

If you make a mistake in writing a check, do not erase or alter the amount or the name. Take a little more time and make out a new check, destroying the old one.

The figures on a check should be placed close to the dollar mark, so that it would be impossible for any dishonest person to insert another figure. In writing the amount on the check in words, begin close to the left-hand margin, and after the amount is written, draw a line in the blank space left between the amount and the word "dollars." Wherever the figures and the written amount on the check differ, a bank will pay written amount.

When making a deposit, always see that your name is written at the head of your deposit slip, in the same form as you wrote it when you left your signature with the bank. Write out the amount of deposit as plainly as possible. List money separately as Gold and Silver, and in entering checks, write the name of the bank drawn on, and the town in which the bank is located.

When depositing currency, arrange bills so that ones and twos will be together, the fives together, the tens together, and so on, and lay the bills upward. Do the same thing with gold and silver. If your deposit is a large one, you may put the money in packages, and label each package with the amount, marking labels in your name.

A check is simply a piece of paper, on which is written an order on your bank to pay some one a certain sum. Strangers often do not like to accept this piece of paper in payment of debts due them. Therefore, in many cases your check should be certified.

When you want a check certified, hand it to the Paying Teller. He in turn gives it to the bookkeeper having charge of your account, and if the bank balance is sufficient to cover the amount, he stamps across the face, "Good for $..... (the amount named in the check), when properly endorsed."

The Paying Teller or some officer of the bank then signs that statement, and the amount of the check is immediately charged to your account. In this way the bank guarantees or certifies that your check is good. If check is not used, return to bank, as it has been charged to your account.

Points About Banking—(Concluded)

A branch of the banking business of great convenience to its customers, that is of great convenience to its customers, is a Collection Department. Notes, drafts, and all negotiable papers are received for collection upon payment of a small per cent.

Notes intended for collection should be left at the bank several days before maturity, as banks sometimes notify the payer a few days before the note falls due.

The formality of identification is a very necessary banking custom. For protection against dishonest practices or unknown persons, banks usually require that all strangers shall be introduced by some responsible acquaintance of the bank, who can vouch for the identity.

PRESIDENTS AND VICE-PRESIDENTS OF THE UNITED STATES

	President	*Birth-place*	*Held Office*
1st	George Washington	Va.	1789-1798
2nd	John Adams	Mass.	1798-1801

Colors Have Their Language

COLORS frequently designate characteristics or temper: i.e. "Brown study," "Black melancholy," "Blue devils," "Green-eyed monster," "Yellow-livered," "Blue stockings," "White feather," etc.

Pink is a happy color, and makes a kitchen a place of contentment for cooks. A blue and yellow room will soothe even a mortgage holder. Red, unless properly subdued, can make fur fly. It is the dynamic color of life, typifies blood and vigor, hence the term, "Flaming youth."

Black is the end or death. White means the beginning of things, as in birth and marriage robes. Gold is glory and power. Saffron is the confessor's color.

Violet signifies dignity. It is therefore used by venerable people, the clergy, the church, and royalty. Rose denotes martyrdom. Blue is for cold stability; the darker the blue, the more stable—for example, the dark-blue uniform of the navy. Baby-blue, although still cold, is warmer, because the newness of a baby entitles him to warmth. It is the color that denotes a boy baby. Pink is used for girl babies, for, being a shade of red, it denotes the life-giving function.

Red, with its virility, blue with its stability, and white to separate them, are the flag's best colors; blondes should avoid green, while red heads demand gray, blue, and green.

PHILADELPHIA STREETS

North and South on Market Street

occur in the following order. House numbers on streets running north and south go by hundreds, as indicated:

Where the Ocean Mines Coal

ON the beach of Buckhaven, Scotland, the sea piles up coal some two or three feet thick. From the town come men, women and children with buckets, boxes, bags and wheelbarrows to get the family supply.

The coal is actually mined by the sea. Ground-swells break away the seams outcropping in the Firth of Forth, and slowly carry the treasure to the shore. In stormy weather the product greatly increases.—*New York World.*

Foreign Money Tables

English: 4 farthings equal 1 Penny (d); 12 Pence equal 1 Shilling (s); 20 Shillings equal 1 Pound (£); 21 Shillings equal 1 Guinea (Gu.).

French: 100 Centimes (c) equal 1 Franc (fr).

German: 100 Pfennige (pf) equal 1 Mark.

Dutch: 100 Cents equal 1 Florin or Guilder.

Italian: 100 Centesimi equal 1 Lira.

Spanish: 100 Centesimos equal 1 Peseta.

RADIO BROADCASTING STATION WOO—
The Wanamaker Store

WANAMAKER'S was the first store in America to erect wireless towers, and has maintained Marconi communication between New York and Philadelphia since 1911.

The powerful radio broadcasting station WOO is located on the Eleventh Floor, and the studio, a specially prepared sound-proof room with necessary musical instruments and electrical equipment for sending out news, speeches, concerts and varied entertainments, is on the second floor, adjoining Egyptian Hall. From here are sent out many concerts, organ recitals, lectures, et cetera.

Station WOO is the official weather forecasting station of the United States Government for Philadelphia. It retransmits the Arlington time signal (Naval Observatory time clock) every day (Sundays excepted) at noon and every evening at 10 o'clock. United States weather forecasts are broadcast at 11:30 A. M. and 10:02 P. M., Eastern Standard time.

Highly developed special apparatus for broadcasting the great organ is installed in the Grand Court. The recitals of the organ, the largest musical instrument in the world, broadcast through WOO, have been heard in Paris, in London, in South America, in California and in Oregon.

On March 4, 1925, WOO participated in the broadcasting of the inaugural address of President Coolidge, which was the first inauguration ceremony to be broadcast. WOO was heard in South Africa, Norway and throughout the British Isles.

Among noteworthy achievements by Station WOO was transmission across the ocean of a program of dance music, in conjunction with Station KDKA in Pittsburgh, on the evening of December 10, 1924. The music was heard so clearly and distinctly at the Hotel Savoy in London that patrons of the hotel were enabled to dance to it.

The stellar event of a notable program which signalized the opening of the Philadelphia Sesqui-Centennial Broadcasting Studio on May 25, 1926, was the simultaneous performance of Tschaikowsky's "1812" Overture by the Wanamaker Grand Organ and the John Wanamaker Commercial Institute band. Perfect synchronization was obtained, although organ and band were separated by a distance of several miles.

The Third Largest State

ILLINOIS is the third largest State in point of population, according to the census of 1920, which places the State's population at 6,485,280.

The Well Dressed Lady

finds this service really indispensable.

Her coat of Bolivia Marvello or similar material needs rejuvenating.

Her afternoon frock or evening gown of velvet or plush shows signs of wear.

Our process makes these materials look like new—brings back their freshness — their bloom of youth.

And the cost is trifling. Our wagons call and deliver. We await your summons.

The Modern Way to Write Is On a New

REMINGTON PORTABLE

IT IS the smallest and lightest portable typewriter with four-row standard keyboard. It is the most compact of all portables. It has the longest writing line of any portable. It accommodates full width paper and long envelopes. It has the finest touch and action, does beautiful work, is unrivaled in strength and durability, and all the writing is always visible.

And it is backed by a service that is world wide and incomparable. Take any user's advice and buy one.

Sold on Small Monthly Payments

Remington Typewriter Co.
